[Extract from the Will of Ferdinand I. King of Bohemia, dated the first of June, 1543.]

ND forasmuch as Almighty God by his special Goodness has heap'd Honours upon us, together with Kingdoms and Principalities, and has thro' his Divine Blessing granted us, by our Marriage with the Most Serene Princess Anne, Queen of Hungary and Bohemia, &c. Archduchess of

Bohemia, our well-beloved Consort, several Children, two of Three Sons and Nine Daughters are actually living; viz. Maximilian, Ferdinand, and Charles; Eleonora, Anne, Mary, Magdalene, Catherine, Eleonora, Margaret, Barbara, and Helena: We will and command, as it is prescribed by God himself, Nature, and all Laws, that such of our Sons and Daughters who shall then be alive, as well as those that we may have hereafter, be our true, lawful, and undisputed Heirs, both after our Decease, without any Contradiction or Opposition whatsoever, to manage, administer, and govern our Kingdoms, Principalities, States, and Cities, as follows: viz.

In Son the Archduke Maximilian shall after our Decease succeed in the Government of our two Kingdoms of Hungary and Bohemia, shall rule, administer, and govern, under their Appurtenances, the Kingdoms, Principalities, Margravates, Counties, Estates, and Subjects, respectively, without any Contradiction or Opposition on the Part of our other Sons and Descendants. And if our said Son Maximilian die without Lawful Descendants, either before or after us, in this case our Son Ferdinand, and on Failure of him the next of the Sons that shall succeed by Inheritance to the Regency of our Kingdoms, and the Dominions thereunto belonging, without any Opposition.

In our State of Lower, Upper, and Hither Austria, which we have receiv'd from the Almighty and our Laudable Ancestors; and as to our Right to the Annual and Hereditary Revenue of 60000 Ducats which were bequeath'd to us, and charged upon the Empire of Naples, by our late Grandfather Ferdinand of Spain, of Glorious Memory, and which his Imperial Majesty our most dear Brother has assign'd over to certain Lands; We have consider'd with a paternal Tenderness, that our Laudable Ancestors have on every Occasion carefully guarded against Division of our Hereditary Principalities and Dominions; having govern'd them individually by an Amicable Administration, common and joint, or by equitable Assignment, which without doubt has concerned not a little, with the Grace of the Almighty, make our House of Austria prosper so considerably as it has done, in Dignity, Honours, Dominions, and Strength, and to extend so far. Therefore, to the end that the Lustre and Splendour of our Laudable House Austria may be kept up as much after our Decease, as in our Life-time, and the Time of our Ancestors, without any Diminution or Diminution, we paternal exhort and pray our dear Sons, with a true and honest Intention, to walk with Obedience and Pleasure in those of our Ancestors, and in like manner to avoid and shun all Manner of Division, for the Honour, Interest, Advantage, and Comfort, as also for the Welfare of their Dominions and Subjects, by agreeing together, and mutually enjoying a common, amicable, and joint Administration of every thing.

To moreover our Meaning, Will and Pleasure, that in every Event, our dearest Sons forbear the use of Division, till the youngest that we shall then have behind us is full Eighteen Years of Age: And to that end that during this Time our said Hereditary Subjects may be preserv'd, govern'd, and defended, in the State of Union and Peace, We command and ordain, that when the Almighty has by his Divine Providence call'd us out of this World, our Two dear Sons Maximilian and Ferdinand, who draw near to their Majority, shall possess, administer, govern and defend, truly and faithfully, as Brothers and Heirs who have yet made any Partition, in their own Name, and for the Benefit of their younger Brothers whom we shall leave at our Decease, all and every one of our Dominions Lower, Upper, and Hither Austria, with the Provinces

Principalities, Margravates, Landgravates, Counties, Lordships, Castles, Cities, Subjects, Tolls, Customs, Imposts, Revenues, Qua-Rents, and Prerogatives, as well as the aforesaid 60000 Ducats of the Neapolitan Legacy, with all their Appurtenances, Rights, and Jurisdictions, without any Exception; and that consequently they be the Patrons, Administrators, and Guardians of their young Brothers and Sisters, our Sons and Daughters, and may educate them with Dignity, in a Manner suitable to their Rank and Birth; the Whole by Advice of her Imperial Majesty, our well-beloved Consort, viz. As we have said till the youngest of our Sons attain to Eighteen Years of Age.

We likewise earnestly order and command our said dear Sons to observe and perform, without Delay or Contradiction, all and every the Marriage Contracts of our dear Daughters already resolved and agreed upon, or which we may hereafter agree to for the Good and Advantage of our Dominions and Subjects. And if our dear Daughters whom we shall leave behind us unmarried should meet with a Match suitable to their Condition and Birth before or after the End of their Minority, they shall be marry'd by our said eldest Sons, by the Advice of her Imperial Majesty our well-beloved Consort, as well as by the Council of our Kingdoms, assigning to each for her legal Dowry and Child's Portion Paternal and Maternal, 100000 Florins of the Rhine, with Jewels, Cloaths, Plate, Furniture and the like, to the Value of 20000 Florins, or as much in Money, which our dear Sons shall grant and pay for their Establishment, Part whereof shall be taken from our Kingdoms and the Principalities therein incorporated, and a Part from the Revenues of our Dominions of Austria, it being allowable for our dear Sons to apply for the Desirability of such Dowry and Settlement of our dear Daughters, as has been at all times the Practice, to our said Hereditary Kingdoms and Dominions, which will undoubtedly thereto contribute without the least Repugnance. Moreover all and every one of our Daughters ought to be satisfy'd with the said Dowry and Paraphernalia, and consequently to renounce for themselves and their Descendants all Rights of paternal and maternal Succession, in favour of our Sons and her Imperial Majesty as Archduke of Austria, and our male Descendants as of those of her Majesty, in such Manner and as it has been practised by our dear Daughters whom we have marry'd and may still marry, and is establish'd by the Usage and Observance of the House of Austria. And tho' this Renunciation be not made by one or more of our Daughters for any Reason whatsoever, yet they shall be nevertheless excluded from all Succession paternal and maternal, on their being paid the said Dowry and Paraphernalia, and our dear Sons shall not be obliged to do any thing more for them.

The Remainder the next Opportunity.

Yesterday arriv'd a Mail from Holland.

Berlin, December 3. N. S.

WE have receiv'd the unexpected but certain News of the following Revolution at the Court of Petersbourg:

The Duke of Courland is deposed from the Regency of the Empire of Russia, and committed with all his Family under a strong Guard to the Fortress of Schlesfleborg. The Princess Anne, Mother to the Emperor, is proclaim'd Regent; the Count d'Osternan is declar'd her Prime Minister; and the Count de Munich, Velt Marshal General of all the Russian Forces.

Hague, Dec. 9. N. S. Two Days ago we had the important News by an Express from Petersbourg, that on the 20th of November last the Velt Marshal Count de Munich went by Order of the Government to the Palace of the Duke of Courland to put him under an Arrest; that the Duke at first made a Resistance but was oblig'd to surrender, and was afterwards sent with a good Guard to Schlisselburg, together with all his Family; that the Members of the Synod, the Generality, and the Senate, offer'd the Regency soon after to the Princess Anne, Mother of the Emperor, and at the same time gave her the Title of Great Princess of Russia. 'Tis added, that this Alteration has occasion'd an universal Joy at Petersbourg, and that on the 21st the following Declaration was publish'd there:

"We JOHN III. by the Grace of God Emperor and Sovereign of all the Russias, make known to all and every Person by these Presents;"

"Tho' by virtue of the authentick Disposition made by the late most illustrious and most Potent Lady Anne Ivanowna Empress and Sovereign of all the Russias of Glorious Memory, and publish'd by our Declaration of the 29th of October last, the most illustrious Duke of Courland, Ernest John, was nam'd and constituted Regent of this Empire during our Minority; and tho' by the said Disposition he was at the same time expressly enjoyn'd by her Imperial Majesty to exercise the said Regency in conformity to the Laws and Constitutions of our Empire, and to the Ordonnances issued not only from her Imperial Majesty but also from her most illustrious Predecessors, to take all the proper Care of our precious Health and Education, to manifest to our most dear Parents, and to the whole Imperial Family, the Respect and Veneration which is due to them, and to provide for their Maintenance in a Manner suitable to their high Rank; We have nevertheless heard to our very great Dissatisfaction, that, instead of discharging, as we expected, his Duty in conformity to her Imperial Majesty's said Disposition, he the Duke of Courland, immediately after having taken Possession of the Regency, and even before the Corpse of her Imperial Majesty was inter'd, da'd to undertake not only to put in Execution several things contrary to the Laws of our Empire, and to preceding Ordonnances, but also what is more aggravating, publickly to declare such a Contempt and Indignation towards their Highnesses our most dear Parents, the Lady our Mother, and the Lord our Father, and by several indecent Menaces which he made use of for that End, to discover Views so dangerous, and so important in their Consequences, that not only our most dear Parents, but also our own Person, and the Tranquillity and Felicity of our Empire might have been expos'd to the most pernicious Condition;"

"For these Causes, &c. We have been obliged, by the most humble Representations and Supplications of our loyal Subjects both Clergy and Laity, to deprive the said Duke of the Regency, and, at the very respectful Instances of our faithful Subjects, to offer the Government of our Russian Empire, during our Minority, to the most dear Lady our Mother her Imperial Highness the Princess Anne, to whom we now and from henceforth give the Style and Title of Great Princess of all the Russias, and to whom we grant all Full Powers to exercise the Regency on the same Footing as her late Imperial Majesty order'd and establish'd by her Disposition."

"To the end that this may be known to all our loyal Subjects, that they may with the utmost Fidelity serve us as their lawful Sovereign and Emperor, and that by virtue of this Constitution they may fully the entire Submission and Obedience due to her Imperial Highness the Great Princess of all the Russias, Anne our most dear Lady and Mother, in the Administration of our Russian Empire during our Minority, and to the end that the most gracious Regulations we have now made may be by them religiously observ'd, inviolably executed, and confirm'd by a solemn Oath. We have most graciously order'd them to be notify'd everywhere by this printed Declaration. L. S. Printed by Order of the Senate,

The Worcester Man of War, Capt. Mayne, a 160 Gun Ship, fought a Spanish Man of War of 70 Guns 11 Hours, and after a stout Resistance carried her into Jamaica. Capt. Mayne is dangerously wounded in the Breast.

Our Men of War in the Streights have taken a Dutch Ship bound from the Canaries to Majorca, with 170 Bags of Cacao, and 50000 Pieces of Eight, the Effects of Spaniards, four Men of that Nation as Surchagees being on Board.

The Dutch Ship that was carrying the Viceroy of Mexico thither, was, the 30th of August last, condemn'd at Port Royal. Her Cargo appeared to be all Spanish, and is very valuable.

Extract of a Letter from Bourdeaux, dated Dec. 3. N. S.

" Our News from Martineco mention a terrible Hurricane from the 11th to the 12th of September last, N. S. The Islands of Guardaleup, Mariaglanante, and Dominique, are mostly destroyed, scarce a Ship saved, nor a House standing, so that they talk of abandoning them. They compute they have lost above 6000 Hogsheads of Sugar. There's some Damage done at Martineco, but not very considerable. The Three French Men of War, one of 66 Guns, one of 64 Guns, and the other of 60 Guns, who sailed the Day before the Marquis d'Antin's Squadron, being about 80 Leagues to the Eastward of the Islands, have lost all their Masts, and put into Martineco in great Distress; but were fitting out again with all Expedition, to proceed on their intended Voyage, but that is kept a great Secret. 'Tis also believed the Spanish Fleet from Ferroll have had their Share.

By Letters from Mahone Nov. 17, we learn, that the Pike, Franklin, the Bigin, Groves, and the Endeavour, Granger, with Bacalao, sail'd from thence with the Convoy for Leghorn.

And from Gibraltar the 29th of October, that the St. Peter Sloop, Glover, from St. Peter's, waited there for a Convoy for Leghorn.

Yesterday arriv'd a French Mail, but brought nothing more material than an Account that a Woman is still living at Paris, and in good Health, who is above 134 Years old, being christen'd the 5th of March 1606, at the Church of Batharan in the Franche Comte.

Next Wednesday, being MILTON's Birth-day, we hear that the Silver Medals will be given this Year to the School at Chiril's Hospital in Smithfield, and at the High School at Edinburgh.

Last Week dy'd the Rev. Mr. Coppendale, Fellow of Trinity College in Cambridge.

THE only short and most infallible Cure in the Universe for the Variolous Disease from the slightest Inflection to the most extreme and dangerous Degree of it, even when the Blood and Juyce are roughly contaminated with its malignant Virus, and the Bones are affected with it.

Fresh Infections, call'd Cears, with all their attended Symptoms, tho' ever so severe, are entirely cured in a few Days, and so effectually to prevent the same and Juices from being tainted with any remaining Disease on one Hand, or a terminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the former Disease attended with Nocturnal Pains, universal Breathing, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely red than by Salivation, Irrigation, or any other Method whatever, and so easy and pleasant a Muster, without impairing Strength, or occasioning any Inconveniences, as hardly to bespeak it the only apposite Remedy or true Universal Antidote in the World; and this some Thousand Persons have experienced.

It is pleasant to take, occasions no Sickness or Discomfort, nor requires Confinement, but may be taken, and the Cure be accomplish'd, without the Knowledge of the person.

Those who suspect they have received an Injury, may by only a Dose or two of it, be perfectly freed from Apprehensions; for it suffers no lurking Venuza in the Body, but wholly extirpates it Root and Branch.

All such likewise as doubt they have some remaining Licks of former Injuries, may by a few Doses of it entirely free themselves from all Suspicion of that Kind; for it admits no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids, and on the Account, in all scrofulous, scrophulous, and even leprosy Eruptions or Foulnesses of the Skin, Glandulous Sores, and Impurities of the Juices, it does more by one Dose than any other Medicine yet known can do.

The Price of this most Noble Anti-Syphilicon, to be Six Shillings a Pot, which, considering its extraordinary efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. Rawlinson's Toyshop, at the Rose and Crown against St. George's Church-Yard in the Strand, ready sealed up with a Seal of Instructions, by the Perfumer of which, all Persons who are ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and easily know when, and when not, the Venereal Pox is indeed rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scrof.
